

# LIBERTY MIDDLE SCHOOL

# FROG FOCUS

February 9, 2024

Did you know many of our students' day at school begins at 7:00 a.m.? The circle drive was packed with cars at 6:56 a.m. today. Whether they are involved in Robotics, Scholars Bowl, early morning workouts, FCS, junior leadership, or singing with Mr. Wade, they are present and involved. Shout-out to all the parents and guardians getting them here to be involved in all that's available.

This week we had spirit week to cheer on those Chiefs and a visit from Miss Kansas. I was out of the building for twin day so the 5th graders asked me to "triplet" with them today. We are celebrating our awesome counselor with a special lunch for staff and we want to shout-out Mrs. McGreevy for all she does for us. SLAB spring conferences are right around the corner and we will be trying something new. Signup genius will be used to schedule all spring conferences here at LMS. An all-call will go out tonight with all the details. Scholars Bowl and wrestling are experiencing tremendous success and we are so proud of their grit, perseverance, and team work.

## Hill's Headlines
