

# LIBERTY MIDDLE SCHOOL

# FROG FOCUS

November 3, 2023

November arrived with a relatively calm week. Oh wait, we had Halloween! It's always fun to see what costumes students choose for Halloween. This year I noticed many groups of students who planned their costumes with friends. We even had a student make his costume-A porta-potty-so creative and funny. The teachers get an extra special "thank you" for getting through Halloween on a Tuesday.

This week teachers also took a deep dive into individual student growth data in IXL. Many students have shown remarkable growth in just the first two full months of the year. We are eager to see the growth as we continue throughout the year. The LMS play is quickly approaching and they have been rehearsing each evening. We also had our first middle school basketball games at Larned last night. KEEP money for qualifying families is still available. Please check into it at the following website- <https://www.keep.ks.gov/>

## Hill's Headlines
